Upper-Intermediate (B2)

Roman Vytak

Senior Frontend Engineer
React · Next.js · TypeScript · JavaScript

SUMMARY

Senior Frontend Engineer with 13+ years of commercial web development experience, including 6+ years with React and TypeScript and 5+ years with Next.js. Built SaaS platforms, complex CRM systems, operational tools, booking applications, and e-commerce products.

Strong in frontend architecture, reusable components, detailed UI implementation, and performance optimisation. Experienced in incremental legacy migrations, clarifying undocumented business workflows, and owning frontend features from technical analysis through production delivery.

EXPERIENCE

Senior Frontend Developer

Gemicle Inc. Aug 2022 – Aug 2026

- Developed a complex React and TypeScript CRM with forms, tables, calendars, and role-based sales and administration workflows.
- Planned and implemented an incremental legacy-to-React migration, preserving business behaviour while continuing feature delivery.
- Clarified undocumented processes with stakeholders and backend engineers, owning frontend architecture, API integration, code reviews, and production support.

Senior Full-Stack Developer (Part-time / Project-based)

PlumPix Jul 2024 – Jul 2026

- Delivered React and Next.js applications for SaaS, CRM, booking, education, and e-commerce projects, including AI-enabled products.
- Built reusable interfaces, complex forms, and data tables with REST/GraphQL, authentication, CMS, analytics, and third-party integrations.
- Collaborated with clients, designers, and backend engineers on requirements, estimates, technical decisions, and production delivery.

Frontend Developer

OTAKOYI Oct 2019 – Aug 2022

- Developed React, Next.js, TypeScript, and WordPress applications with responsive, reusable, and pixel-accurate interfaces.
- Integrated REST APIs, GraphQL/Apollo, CMS platforms, analytics, and third-party services.
- Built multilingual applications and improved performance, accessibility, and frontend architecture through collaboration and code reviews.

Frontend Developer

Bambuk Design Studio May 2013 – Oct 2019

- Built responsive websites and custom WordPress/PHP applications with interactive components, animations, and third-party integrations.
- Collaborated with designers and clients on UX, technical solutions, project planning, and frontend team coordination.
